

# Inflatable Outdoor Decorations

## ASSEMBLY INSTRUCTION

### Notice: Please read all instructions carefully before use.

- Do not attempt to inflate in windy conditions. If the weather is too windy, deflate the inflatable, secure it, and wait for better weather conditions.
- Protect the electric fan and power cord from exposure to water.
- Please use all the provided stakes to properly secure the inflatable.
- If any parts are missing, broken, damaged, or worn, stop using this product until repairs are made and/or factory replacement parts are installed.
- Do not place your inflatable near bushes, trees or building structures as they can puncture the inflatable.
- It is also recommend that you bring the product indoor during adverse weather (extreme cold, strong winds and/or rain).
- The product is not intended for use by children.

### Cleaning and storage

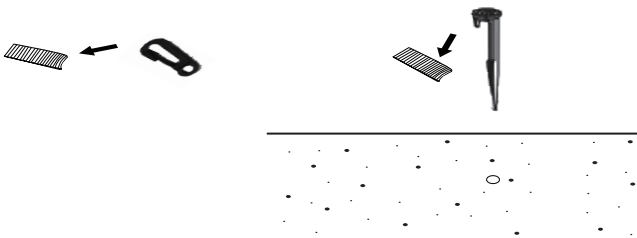

- Use mild detergent and cold water to wipe the inflatable clean. Do not wipe the fan or motor with water.
- Always store the product in a cool, dry location protected from sunlight or moisture.

### Trouble shooting checklist

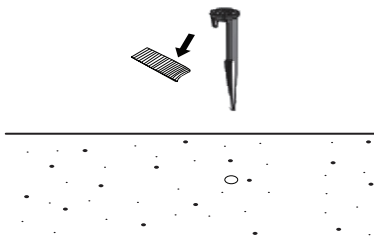

Not inflating properly	Not plugged in properly	Make sure it is properly plugged in
	Debris lodged in motor	Clean the motor of obstructions
	Zipper open	Fully close the zipper

### Assembly steps

1. Unroll the inflatable and lay it on a level and clean surface. Make sure that the inflatable lays flat and is not tangled.
2. Make sure the blower air intake located on the bottom and it is clear of fabric and free of obstruction.
3. Fully close the zipper on the back of the inflatable.
4. If the item with clips, fix the clip on one end of the rope, and attach the clip to the loops on the sides of the inflatable. Fix the other end of the rope with stakes. Insert the stakes to the loops on the sides of the inflatable and secure it to the ground.

5. If the item without clips, insert the stakes to the loops on the sides of the inflatable and secure it to the ground.

6. Plug the fan into an outlet to inflate your inflatable.
